

# When and Where are Masks Required

## ALWAYS

- Nurse/Health room
- Isolation room
- Days 6-10 of isolation, unless the person has tested negative

## MAY BE

- During an outbreak or high level of disease
- During higher risk activities
- As part individual staff or child/student accommodation (case by case)

# Return after Symptom Exclusion

## What to do if a Person is Symptomatic

These recommendations are for K-12 schools, child care, and connected extra-curricular activities.

**UNDER CONSTRUCTION**

If a person has one or more of these symptoms:

- Fever ( $\geq 100.4^{\circ}\text{F}$ ) or chills
- Shortness of breath or difficulty breathing
- Muscle or body aches
- New loss of taste or smell
- Cough (new, changed, or worsening)

They should isolate at home AND get tested for COVID-19

If they do not receive an alternative named diagnosis from a health care provider OR do not get tested

They test **POSITIVE** for COVID-19

They test **NEGATIVE** for COVID-19 OR receive an alternative named diagnosis from a health care provider plus a negative test

They should isolate at home

They can return to school, child care, and activities after five days have passed since symptoms first appeared if:

1. No fever within the past 24 hours (without medication) **AND**
2. Symptoms have significantly improved **AND**
3. They continue to wear a mask around others for an additional 5 days

They should isolate at home

Was **only ONE** symptom present?

Did the symptom resolve within 24 hours **OR** are they consistent with a diagnosed chronic illness?

Return to school, child care, and activities if:

1. No fever within the past 24 hours (without medication) **AND**
2. Symptoms have significantly improved

- Congestion or runny nose
- Nausea, vomiting, or diarrhea
- Headache
- Fatigue
- Sore throat

They should isolate at home
